

M&B Systems Partial Discharge Monitoring Equipment Discharge free Coupling Capacitor

**50 kV HV Coupling Capacitor fitted with
50/60 Hz filter with buffer drive amplifier**

Advanced Technology for Industry

05-06-2004

High Voltage Coupling Capacitors Type HVS 988/40/100

For direct connection to the high voltage system providing signal coupling from the test circuit.

Coupling capacitors can be supplied up to 100 kV rating

Rating up to 40kV the capacitors are compact ceramic type. Rating up to 100kV the capacitors are conventional paper/polyester type.

Both types give less than 5pC inherent discharge level
